

# Study on the heat and humidity tolerant of dairy cows with slick gene

## 具短毛基因荷蘭乳牛之耐濕熱特性研究

Date: Decemner 11 (Thu.), 2025

日期：114 年12 月11日(星期)四

| Time        | Activity                                                                                                                                                                        | Moderator                                                                                                                      |
