- (B) Explain in detail the purpose of the questions you created. (10%)
(請以英文詳細說明題目設計的目的。)

Take a look around you while on a bus or the MRT. You will probably see some people tapping away on their iPads, smart phones or other gadgets, taking advantage of touch technology. There is no doubt this is the way of the future.

Touch screen technology combines virtual applications and the sense of touch, which allows people to write messages on a screen simply by touching it, rather than by typing on a real keyboard. Touch technology has even progressed to the point where many users can multitask on one screen. Before long, everyone from doctors to teachers will be using touch technology. The future is a world of touch, and we are quickly moving toward it.

Part II:

- (A) Please create a blank-filling test based on the following article
(請將下列文章出成文意選填測驗。)(25%)
- (B) Explain in detail the purpose of the questions designed. (10%)
(請以英文詳細說明題目設計的目的。)
