ProQuest One Business

滿足商學院學生、教師與研究人員的多元需求

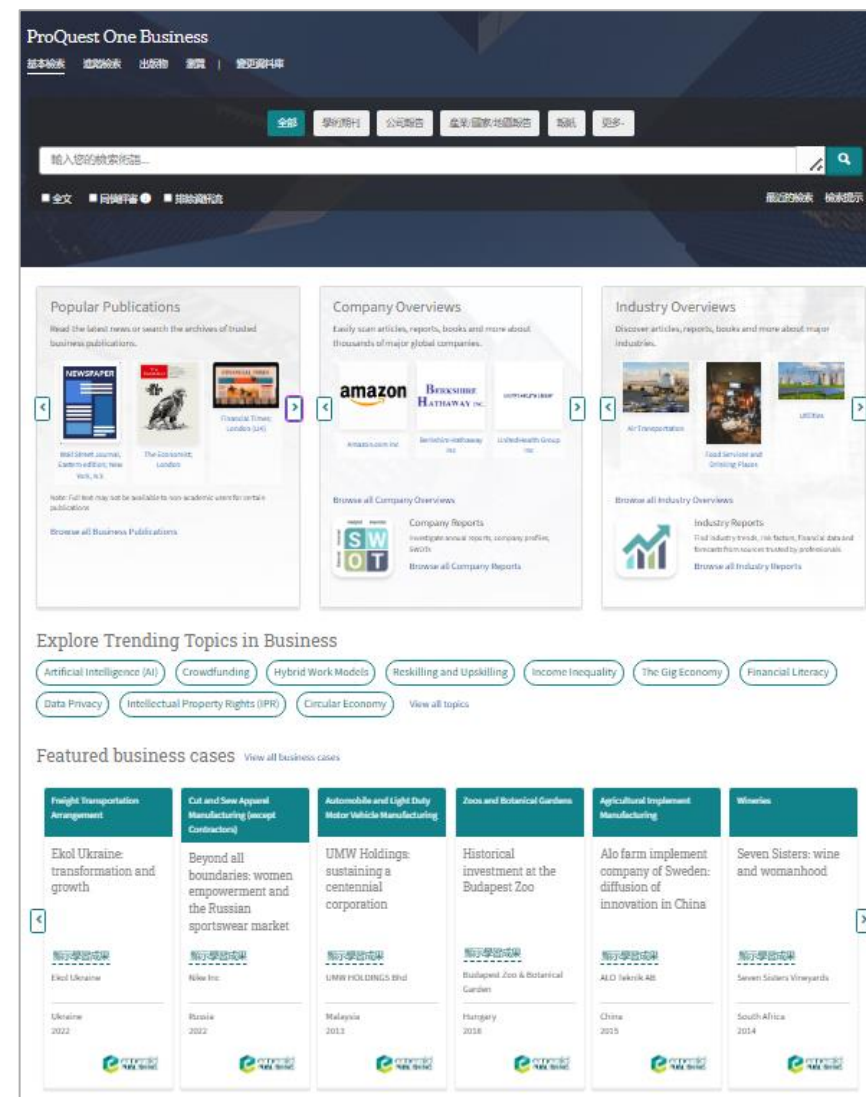

ProQuest One Business 是與教職員、學生及圖書館員合作開發的平台，結合實務與理論內容，並提供直觀簡潔的操作介面，協助學生培養其課程與職涯所需的研究能力，提升學習成效。

Key Benefits:

- 此平台採用專為商業領域設計的獨特介面，協助學生輕鬆尋找完成常見作業所需的資訊，並提供全方位支援。
- 以知名的商管權威資料庫ABI/INFORM為基礎，並補充更多商管領域教學與研究資源。此外，內建人工智慧驅動的 ProQuest 研究助理，進一步提升研究效率與準確度。
- 包含獨特的專業功能，如涵蓋4,000家全球企業與119個北美產業分類系統（NAICS）代碼的主題頁面，以及專為商業領域設計的分類詞庫。

Key Topics:

- | | | |
|--------------------|--------------------|-------------------|
| • Accounting & Tax | • Economics | • Human Resources |
| • Banking | • Entrepreneurship | • Management |
| • Business Law | • Finance | • Marketing |

豐富資源與多元內容

- 全新升級版本收錄超過11,760多種出版物，來自學術期刊、雜誌、新聞、商業出版物、個案研究、市場和產業報告、商業案例等的大量全文內容，並且增加更多影片、電子書、A&I 索摘資料庫等提供研究解決方案。

學術期刊：收錄 3,000 多種全文學術期刊

電子書：1,300 多本電子書

報紙新聞：130 多份全文報紙

個案研究：3 萬多個案例，讓學生了解商業中的複雜問題

博碩士論文：超過 5.7 萬篇博碩士全文論文

影音資源：超過 2.7 萬支影片與音檔，包含商業領袖訪談、案例研究和教學影片

市場國家和產業報告：全球著名智庫和數千份報告

學術內容 不同型態的學術期刊出版社

ProQuest One Business 集合了大學出版社、學會及專業協會的出版品，並兼顧國際化及多元化的內容需求：

商學推薦學術性期刊 (2024 IF; ★ 獨家收錄)

- Journal of Research in Interactive Marketing (IF: 11.6) ★ [JCR 商學 No. 7]
- Journal of Retailing (IF:10.2)
- Journal of the Academy of Marketing Science (IF: 10.1)
- International Journal of Contemporary Hospitality Management (IF: 9.0) ★ [JCR餐飲管理No.5]
- Journal of International Business Studies (IF: 9.0) ★

學術內容 獨特學術資源

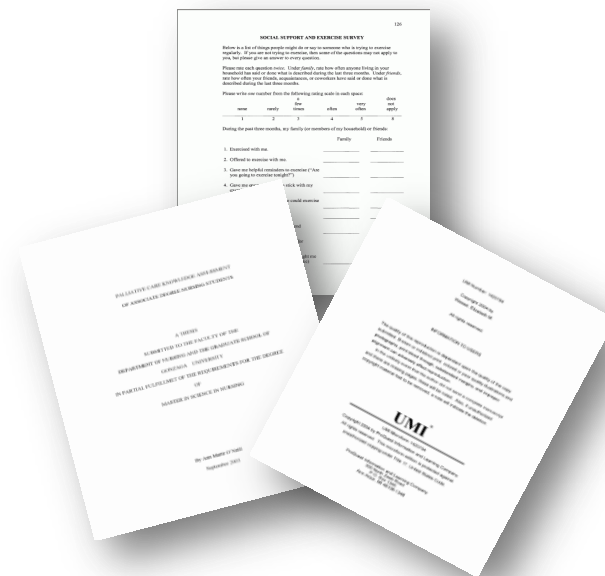

ProQuest 提供期刊以外的學術內容，更具整體性！！

Working Papers

Case Studies /
Conference Proceedings

Doctoral Dissertations

掌握商學最新研究趨勢
不容錯過！！

個案研究/會議論文
強化理論與實務接軌！！

提供57,000多篇商學領域
之博碩士論文全文！！

文章發表至期刊上可能須一段時間
透過以上資源能讓您掌握最新研究趨勢

學術內容 Working Papers 掌握第一手研究訊息

讓您掌握最新研究動態，不再慢半拍！

RePEc (Research Papers in Economics) 經濟研究論文

- **642,000+ 篇 RePEc Working Papers 索摘及全文連結**
- RePEc 是一個經濟學研究論文之網站，是由數百名志願工作者中的共同合作維護並傳播其研究成果，目前是維持獨立的基金運作方式，不接受任何單位之補助。

NBER(National Bureau of Economic Research) Working Papers 美國國家經濟研究局研究論文

- **30,220+ 篇 NBER Working Papers 索摘及全文連結**
- 美國國家經濟研究署(NBER) 創立於1920年，是一個非官方、非營利的研究組織，主要是研究經濟方面的科學和經驗(尤其是美國經濟)並以不偏頗公眾決策人、商業專家、學者任何一方情況下說明與進行經濟研究。

AgEcon(Research in Agricultural & Applied Economics) 農業與應用經濟學研究論文

- **24,230+ 篇 AgEcon Working Papers 索摘及全文連結**
- AgEcon Search 是一個非營利學科知識庫，由明尼蘇達大學應用經濟系和圖書館共同贊助，並在國際顧問委員會和合作夥伴的指導下運作。

學術內容 ProQuest 博碩士全文論文

- 提供 **57,000 多篇之博碩士全文論文**
- 博碩士論文是經過**同儕評鑑**的內容
- 博碩士論文的價值在於，提供研究相關的**文獻背景資料** (literature reviews)及研究方法。
- 博碩士論文提供新一代學者最新的研究，可了解各領域**最新的研究趨勢**
- 作為研究工具，博碩士論文提供了相關主題最豐富的**書目資訊**

Economic Mobility

在此頁面上: [Scholarly Journals](#) [Top Publications](#) [Authors Writing On This Topic](#) [Subjects](#) [Videos](#) [News](#) [Books](#) [Dissertations](#) [Results Timeline](#)

Economic mobility refers to the ability of individuals, families, or groups to improve or lower their economic status over time. This concept is crucial in both business and economics as it reflects the dynamics of income distribution and the opportunities for financial advancement or decline within a society. Economic mobility can be measured in various ways, including changes in income, wealth, or social status, and is often categorized into two main types: absolute and relative mobility. Absolute mobility measures the overall changes in income or wealth across generations. It looks at whether individuals are better off financially than their parents were at the same age....

The screenshot displays the ProQuest One Business interface. The top navigation bar includes the ProQuest logo, the text 'ProQuest One Business', and a search icon. Below the navigation bar, there is a breadcrumb trail: '< 返回至檢索結果頁 < 第 17 個, 共 556 個 > 全文 | 資訊或視訊作品'. The main content area is split into two panels. The left panel shows a video player with a man wearing headphones, identified as 'Jason Palmer', speaking. The right panel shows a 'Transcript' sidebar with a search bar and a list of timestamps and text. The transcript text is as follows:

- 00:00:15 Donald Trump and Xi Jinping met at a South Korean airbase to try and finalize the terms of a truce in their trade war. And Donald Trump after the meeting
- 00:00:30 He then thinks it all went pretty well. It's all sewn up. What did China say?
- 00:00:35 The China Side took its time to come out with its sort of readout, but a statement from their commerce ministry did ultimately confirm that, you know, after

Below the video player, the title 'Can Donald Trump And Xi Jinping's Trade War Truce Really Last?, in Economist Video' is displayed, followed by the subtitle '於 Economist Video. Economist Video. The Economist Intelligence Unit N.A., Incorporated. Jan 1, 2025.' At the bottom right, there are icons for '引用' (Cite), '複製 URL' (Copy URL), '列印' (Print), and '所有選項' (All options).

Company Overview

Known for signature beverages Slurpee and Big Gulp, 7-Eleven operates more than 11,800 company-owned or franchised convenience stores in North America under the 7-Eleven name. Globally, 7-Eleven licenses more than 69,000 stores in over 15 countries, mostly in the Asia-Pacific region and the Nordic countries of Europe. In addition to its iconic beverages, the chain sells thousands of other traditional convenience items (many under its own private-label brand) as well as sandwiches, salads, pizza, cut fruit, and other ready-to-eat foods. Some locations sell gasoline and offer services such as money orders and self-service lockers. 7-Eleven is the North American subsidiary of Seven-Eleven Japan, itself owned by Japanese retail conglomerate Seven & i Holdings.

Industry Overview

The Retail Trade sector comprises establishments engaged in retailing merchandise, generally without transformation, and rendering services incidental to the sale of merchandise. The retailing process is the final step in the distribution of merchandise; retailers are, therefore, organized to sell merchandise in small quantities to the general public. This sector comprises two main types of retailers: store and nonstore retailers. 1.) Store retailers operate fixed point-of-sale locations, located and designed to attract a high volume of walk-in customers. In general, retail stores have extensive displays of merchandise and use mass-media advertising to attract customers. They typically sell merchandise to the general public for personal or...

Artificial Intelligence (AI) and Marketing

Artificial intelligence (AI) is profoundly transforming the field of marketing, reshaping how businesses engage with customers, optimize campaigns, and drive growth. One of the most significant impacts of AI in marketing is its ability to analyze vast amounts of data quickly and accurately. This capability allows marketers to gain deeper insights into consumer behavior, preferences, and trends, enabling more precise targeting and personalization of marketing efforts. AI could also enhance the efficiency and effectiveness of marketing campaigns through automation. Tasks that were once time-consuming and labor-intensive, such as content creation, email marketing, and social media management, may become automated using AI tools. This not only...

Artificial intelligence (AI) refers to the simulation of human intelligence in machines that are capable of performing tasks that typically require human intelligence, such as speech, making decisions, and translating languages. AI encompasses various subfields, including machine learning, natural language processing, and computer vision.

更多 >

Automation in Accounting Processes

Automation processes in accounting refer to the use of technology to perform accounting tasks, such as data entry, reconciliation, and reporting. This automation enhances efficiency, accuracy, and compliance while reducing costs and the risk of human error.

Inequality in the Distribution of Wealth and Income as a Natural Consequence of the Equal Opportunity of All Members in the Economic System Represented by a Scale-Free Network

Ingersoll, John G. *Economies; Basel* Vol. 12, Iss. 9, (2024): 232. DOI:10.3390/economies12090232

全文 PDF 摘要/詳細資料 (41) 參考文件 (216) 具有共享參考資料

摘要 翻譯

Here is the key takeaway.
Inequality in wealth and income distribution is an inevitable consequence of the fact that equal opportunity is provided, and policies should focus on addressing the issue rather than merely redistributing wealth.

Additional topics discussed include:

- Optimal Gini coefficient and its implications

Description

What impact can various research methods have on consumer behavior? How do these methods affect the workings of the consumer mind? And how can the field of consumer psychology best utilize these methods? In the Handbook of Research Methods in Consumer Psychology, leading consumer psychologists summarize key aspects of the research process and explain how different methods enrich understanding of consumer behavior.

研究結果或結論是什麼?

這是研究結果或結論。

The document aims to develop an analytical model for understanding the distribution of wealth and income within an economic system characterized by a large number of actors. It seeks to illustrate how complex networks can be integrated into traditional economic models, specifically the Arrow-Debreu model, to better reflect the dynamics of wealth distribution.

The main findings of the document include:

- 1. Model Development:** The authors propose a model that utilizes a complex network of nodes (actors) and links (wealth or income) to calculate the probability distribution of wealth among actors. This model draws an analogy to Max Planck's work on black body radiation, suggesting that maximizing entropy under certain constraints leads to a specific distribution of wealth. [1](#)
- 2. Probability Density Function:** The resulting distribution is described as a probability density function that combines a power function with an exponential function, termed the Planck distribution. This distribution reflects the most efficient allocation of total wealth among actors, indicating that wealth distribution follows a natural law similar to physical phenomena. [1](#)
- 3. Inequality Insights:** The document concludes that inequality in wealth and income is an inevitable aspect of economic systems, arising from the natural setup of the world. It emphasizes that while inequality cannot be entirely eliminated, economic policies should aim to maintain it at an optimal level by ensuring equal opportunities for all actors. [2](#)
- 4. Policy Recommendations:** The authors advocate for policies that promote education and health, as well as a reevaluation of wealth accumulation rules, rather than relying solely on taxation and social welfare measures. This approach is posited as more effective in addressing inequality and achieving an optimal distribution of wealth and income. [3](#)

In conclusion, the document presents a novel perspective on economic modeling by incorporating complex networks, highlighting the natural occurrence of inequality, and suggesting that effective policy should focus on equal opportunity rather than attempting to eliminate inequality altogether. This framework aims to provide a deeper understanding of wealth distribution dynamics in modern economies.

有哪些主要詳細資料?

這是主要詳細資料。

Main Point
The document discusses the properties and definitions of the exponential integral function $E_5(n\beta h)$, including its minimum parameter requirements and approximations for certain values [1](#) [2](#)

Purpose/Hypothesis
The purpose is to explore the relationships and calculations involving the exponential integral function, particularly in relation to wealth distribution [2](#)

Study Design/Methods
The study involves mathematical analysis and numerical calculations of the exponential integral function, with references to specific equations and parameters [2](#) [3](#)

Results/Outcomes
The findings indicate that the parameter δ must be a positive integer with a minimum value of 1, and approximations can simplify calculations for certain values of the argument [2](#) [3](#)

Implications
The results have implications for understanding wealth distribution models and the behavior of the exponential integral function in mathematical contexts [2](#)

Study Limitations
The document notes that the approximation used may introduce a small error in the calculations, particularly for lower values of wealth [3](#)

說明重要概念。

Here are the important concepts.

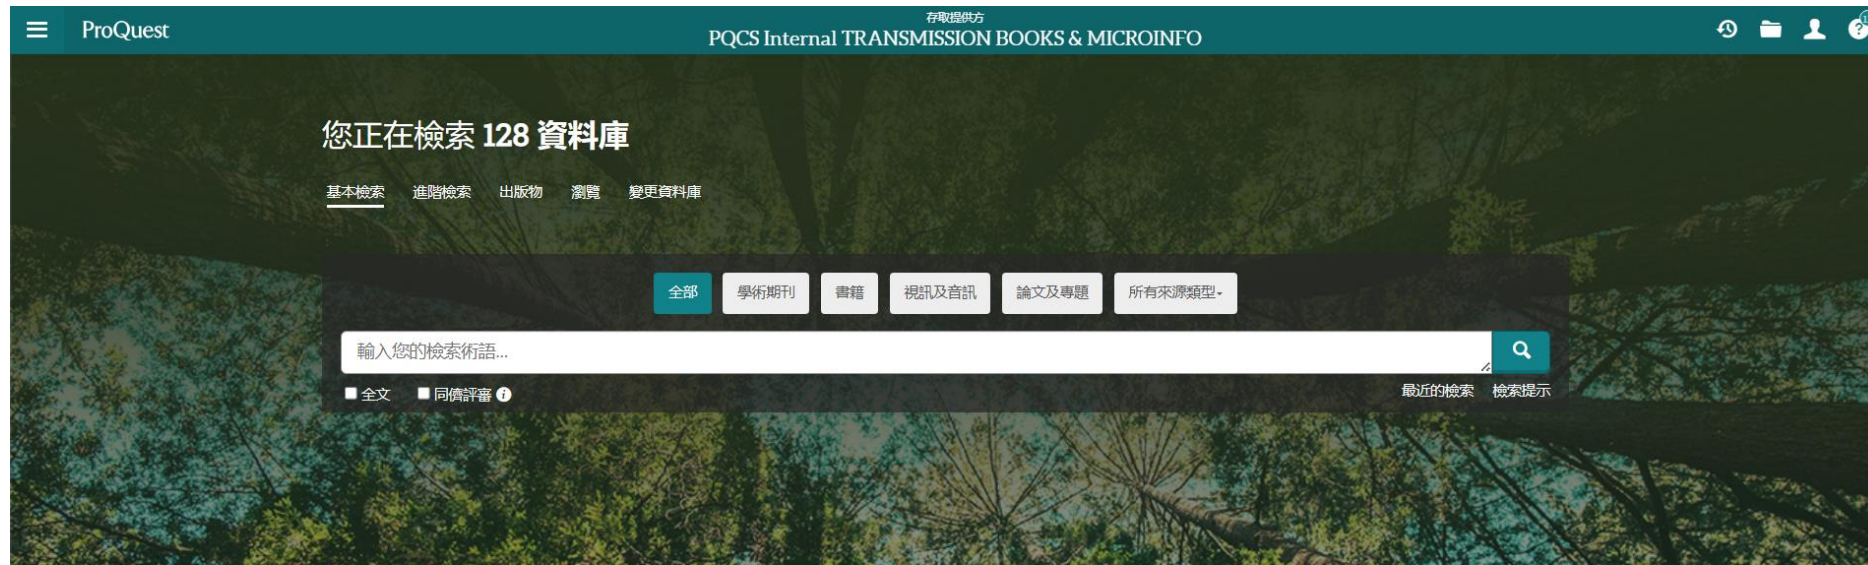

- Pareto:** Vilfredo Pareto was an Italian engineer, economist, and sociologist known for his analysis of wealth distribution, which led to the formulation of the Pareto Principle, stating that 20% of the population controls 80% of the wealth. His work is significant in the document as it serves as a foundational concept for understanding wealth inequality and is used to derive the empirical Pareto law in the context of economic systems.
- Planck Distribution:** The Planck distribution is a probability density function that describes the distribution of energy among quantum particles, analogous to wealth distribution in economic systems. Its significance in the document lies in its application to model the allocation of wealth and income among actors in an economic system, providing insights into the nature of inequality.
- Gini Coefficient:** The Gini coefficient is a statistical measure of income or wealth inequality within a population, ranging from 0 (perfect equality) to 1 (perfect inequality). In the document, it is used to evaluate the effectiveness of economic policies aimed at achieving optimal wealth distribution and to compare actual inequality levels across different economies.
- Quantum System:** A quantum system refers to a physical system that exhibits quantum mechanical properties, such as superposition and entanglement, and is characterized by discrete energy levels. The document draws parallels between quantum systems and economic systems to explain the dynamics of wealth distribution and the emergence of inequality.
- Complex Network:** A complex network is a structure made up of interconnected nodes (actors) and links (wealth elements), which can model various systems, including economic ones. Its significance in the document is that it provides a framework for understanding the interactions and relationships between actors in the economy, leading to insights about wealth distribution.
- Statistical Thermodynamics:** Statistical thermodynamics is a branch of physics that uses statistical methods to explain the thermodynamic properties of systems composed of a large number of particles. The document employs concepts from statistical thermodynamics to analyze economic systems, particularly in relation to wealth distribution and the behavior of actors.
- Income Inequality:** Income inequality refers to the unequal distribution of income among individuals or groups within a
